| Managerial    | Accounting  |

| Course Code   | MBA-520   |
|---------------|---|
| Credits       | 3   |
| Pre-requisite | None  |
| Description   | The purpose of this course is to introduce you to the concepts and procedures of managerial accounting from the perspective of the user. It is assumed that you are studying for, or are in, a management position as opposed to a purely accounting position. Therefore the emphasis will be on how to use information more than how to create it. You will likely find that we cover material that you have been exposed to in other courses in the program, such as economics, financial accounting, finance, and organizational behavior. |

Managerial accounting courses typically cover two primary topics; (1) cost accumulation and (2) decision making and control. We will cover each in this course; however the majority of our time will be spent on decision making and control. The class is meant to teach you how to think about managerial accounting issues, not necessarily give you a how to do list.

| Human Behavior in Social Environment |   |  |
|--------------------------------------|---|--|
| Course Code                          | MBA-560   |  |
| Credits                              | 3   |  |
| Pre-requisite                        | None  |  |
| Description                          | This course is designed to help you chart a knowledgeable course through the complexity of human experience. We will explore a select set of theories that help us understand how individuals and communities develop and interact. We will focus on the key theories that help us understand the dimensions and expression of human behavior in the social environment. This discussion is followed by an examination of how dimensions of culture and cultural contexts can shape individual values, beliefs worldviews and identities and therefore play a role in the helping process. We will also explore areas of universality and difference in the context of gender, race, ethnicity, sexual orientation, spiritual beliefs, and socioeconomic class, as well as the realities and influence of multiple forms of oppression. The goal of the course is to enable students to develop a culturally competent framework for analyzing human behavior in order to create empathic, empowering relationships with individuals, families, groups, organizations, and communities. |  |

### **Executive Business Communications**

| Course Code   | MBA-550   |
|---------------|---|

| Credits                  | 3   |
| Pre-requisite            | None  |
| Description              | This course provides the insight into the challenges faced by managers in research<br>for business decision making. It aims to integrate academic research with industry<br>research while focusing on basic and applied research for decision making process in<br>organizations. The program will provide the knowledge and skills a manager needs<br>to solve information gathering and research related problems in the organization. |

## **MBA Specialization Courses - Finance**

| Investment Portfolio Management |  |
|---------------------------------|--|
| Course Code                     | MBA-527  |
| Credits                         | 3  |
| Pre-requisite                   | None   |
| Description                     | The course is designed to provide students a thorough overview of financial markets.<br>The course will explain the various alternative investment opportunities and will<br>discuss various types of financial markets. This course will also help in seeking<br>investment opportunities in different portfolios. It will also give a complete<br>understanding of bond fundamentals; bond yields and bond prices. A number of<br>portfolio risk return theories will be discussed. This course will also introduce the<br>concepts of future and options. |

| Financial Statement Analysis |  |
|------------------------------|--|
| Course Code                  | MBA-573  |
| Credits                      | 3  |
| Pre-requisite                | None   |
| Description                  | This is a second year course for undergraduate business students. It is mandatory for<br>all banking and finance students. It is optional for non-finance business students.<br>The course aims to provide participants with an understanding of the use of<br>financial statement information from a user perspective such as equity investor,<br>debt holder, financial analyst and manager. The course examines the impact of |

different accounting choices on reported earnings, shareholders' equity, cash flow and various measures of corporate performance. Participants will develop skills in analyzing financial statements for investment, credit and other business decisions. In view of the considerable similarities among US Financial Reporting Standards (US GAAP), International Financial Reporting Standards (IFRS) and Financial Reporting Standards in Singapore (FRS) for most of the topics covered in this course, we will focus on FRS in this course. Main differences between FRS and IFRS (and/or US GAAP) will be highlighted where appropriate.

| Funds Management |  |
|------------------|--|
| Course Code      | MBA-520  |
| Credits          | 3  |
| Pre-requisite    | None   |
| Description      | This course introduces students to the process of managing investment portfolios.<br>The primary focus will be on funds management at the institutional, rather than<br>personal, level. Students will explore the continuous and systematic decision-making<br>process underlying the management of publicly offered investment funds. The<br>course explores and analyses the theory, concepts, tools and techniques of funds<br>management in a global environment.<br>The objective is to provide an understanding of the tools used in the investment |
|                  | industry as well as the problems involved with delegated portfolio management. At the end of the course, the students should have a broad understanding the Asset Management Industry.   |

| Risk Management and Insurance |  |
|-------------------------------|--|
| Course Code                   | MBA-521  |
| Credits                       | 3  |
| Pre-requisite                 | None   |
| Description                   | The Risk Management and Insurance specialty program will prepare students for careers in positions that help individuals and businesses identify and manage risks and understand the relationship of appropriate insurance product and related service solutions. The insurance business is knowledge-driven and an integral part of modern societies and the global economy. This program develops and integrates, business management, marketing, financial and statistical analysis skills. It places an emphasis on developing high standards of professional ethics, especially in relationship to this industry. |

## **Commercial and Development Banking**

|               | 104 522   |
|---------------|---|
| Course Code   | MBA-522   |
| Credits       | 3   |
| Pre-requisite | None  |
| Description   | The rationale behind the inclusion of the course is to acquaint those students who<br>want to pursue career in commercial banking sector with some of these practices.<br>On completion of this course participant will have a good understanding on<br>Commercial Banks Management, their role in economy, national and international<br>regulation on banking, global banking standards/best practices and international<br>financial development institutions. However, no prerequisite is required for this<br>course. Knowledge of financial management is of good help. |

| International Financial Management |  |
|------------------------------------|--|
| Course Code                        | MBA-524  |
| Credits                            | 3  |
| Pre-requisite                      | None   |
| Description                        | The objective of the course is to provide the student with the conceptual framework necessary to appreciate and understand the challenges facing the financial manager in a global financial environment. The first half of the course covers the key financial issues faced by businesses operating internationally and tools available to help manage risks. Specifically, the determination of exchange rates, country risk analysis, foreign currency derivatives (futures, options, currency, and interest rate swaps), and the use of these products in risk management strategies to hedge foreign currency risk faced by the Multi-National Corporation (MNC). |
|                                    | The second half of the course focuses on the MNC and global foreign<br>investment. Specifically, Euro currencies, international capital markets<br>(including equities, global bond markets, and role of the major rating agencies),<br>cost of capital, working capital, capital budgeting, short-term financing, and<br>managing international cash flows within the multi-national corporation and its<br>foreign subsidiaries. We will utilize cases and group projects to augment<br>lectures, readings, and exercises.   |

| Taxation Management |  |
|---------------------|--|
| Course Code         | MBA-525  |
| Credits             | 3  |
| Pre-requisite       | None   |
|                     | The rationale behind inclusion of taxation management in program is that as MBA qualification holders most probably you will pursue career in business environment , where taxation has a big impact on its financial management, furthermore companies incur a high expense to pay tax consultant.  |
| Description         | Your knowledge in tax legislation is a high value addition to your business. Besides<br>that, your theoretical knowledge base helps you critically analyze existing taxation<br>system and offer better suggestion. As tax authority you can offer amendment to<br>tax law and play a key role to tax reform. In addition to all, you can also utilize your<br>skills to provide consultancy and update individuals or companies on taxation<br>systems. |

#### **MBA Specialization Courses - Management**

| Problem Solving and Decision Making |  |
|-------------------------------------|--|
| Course Code                         | MBA-507  |
| Credits                             | 3  |
| Pre-requisite                       | None   |
|                                     | Every day of our lives, we are faced with situations that require us to decide what to say and do.   |
| Description                         | Problems are further compounded by the fact that change and uncertainty now<br>seem to be an inevitable part of our lives. Making decisions and bearing the<br>responsibility for them is one of the cornerstones of the manager's job. This<br>fundamental importance of decision making is reflected in the attention shown to it<br>by several academic disciplines. Philosophy, Economics, Mathematics, and the Social<br>Sciences have all contributed to better the understanding of how decisions are made,<br>or ought to be made. Management life, like our every-day life, involves a whole series<br>of decisions. They may be trivial or important, repetitive or novel, expected or<br>unforeseen, but all are part of how mangers spend their time.<br>This subject will help students develop a deeper understanding of their decision<br>making capabilities in the context of business. |

| Strategic Management |  |
|----------------------|--|
| Course Code          | MBA-505  |
| Credits              | 3  |
| Pre-requisite        | None   |
|                      | This course introduces the key concepts, tools, and principles of strategic formulation and competitive analysis. It is concerned with managerial decisions and actions that affect the performance and survival of business enterprises. The course is focused on the information, analyses, organizational processes, and skills and business, judgment managers must use to device strategies, possession their businesses, define firm boundaries and maximize long term profits in the face of uncertainty and competition.   |
| Description          | Strategic management is an integrative and interdisciplinary course. It assumes a broad view of the environment that includes buyers, suppliers, competitors, technology, the economy, capital market, government, and global forces and views the external environment as dynamic and characterized by uncertainty. In strategy, the course draws together and builds on all the ideas, concepts and theories from functional courses such as accounting, economics, finance, marketing, organizational behavior, and statistics. |

| Conflict Management & Negotiation |   |
|-----------------------------------|---|
| Course Code                       | MBA-508   |
| Credits                           | 3   |
| Pre-requisite                     | None  |
| Description                       | No organization runs for charity, it has to make money to survive well. Employees must give their hundred percent at work to ensure the maximum productivity. Nothing productive will ever come out if the employees are constantly engaged in fighting and criticizing others. Conflict management plays a very important role at workplaces to prevent conflicts and for the employees to concentrate on their work. The team leaders must ensure that the roles and responsibilities of each and every employee are clearly passed on to them. |

| Project Management |  |  |
|--------------------|--|--|
| Course Code        | MBA-509  |  |
| Credits            | 3  |  |
| Pre-requisite      | None   |  |
